Child Welfare Digital Services

Child Welfare Digital Services Sprint Review Presentation

Sprint Review of Iteration 4.5
CALS

Sprint Dates: 10/19/17 to 11/01/17

Agenda

- CALS product discussion
 - Value proposition
 - Accepted work targets for 4.5
 - User research and design
 - Product demonstration
- Next event
- Important links

CALS value proposition, PI-4 “RFA Applications”

Child Welfare Goals	Impact of CALS	PI-3 Features to Deliver Value
Child Safety	Enforced and evaluated standards of quality to ensure all placement facilities are safe for children	Home search and Facility Profiles that display compliance history at a glance
Child Welfare	RFA workers have an easier method of assisting applicants in creating good homes for children	End to End creation of RFA 01A/B/C Ability to print As-Is Version of forms
Workload Management	Less time fighting the tool and more time for social work	Global and Page navigations across all digital services makes it easier to operate in the system
Data Quality	Reduction in the duplication of data entry across multiple data sources	Single point of entry for applicant information that is reused throughout RFA forms process Creation of Facilities in CWS/CMS

Sprint Iteration 4.5

Target Completion Activities

Design

- RFA 01 A/B/C Cleanup
- Navigation from Form to Form Visual Design
- Quick synthesis of Q meeting
- PI-5 Design Planning

Front End Dev

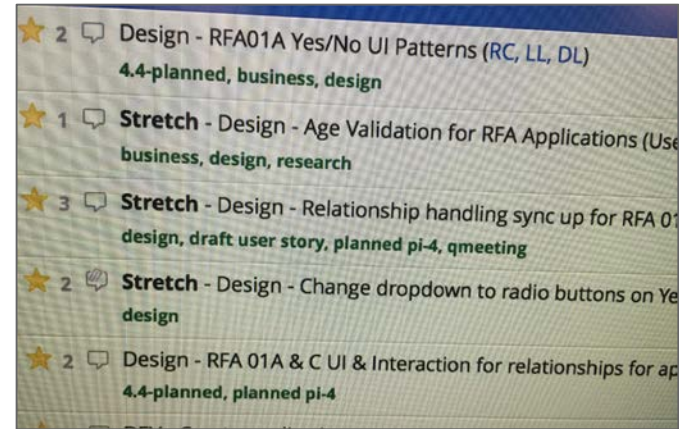

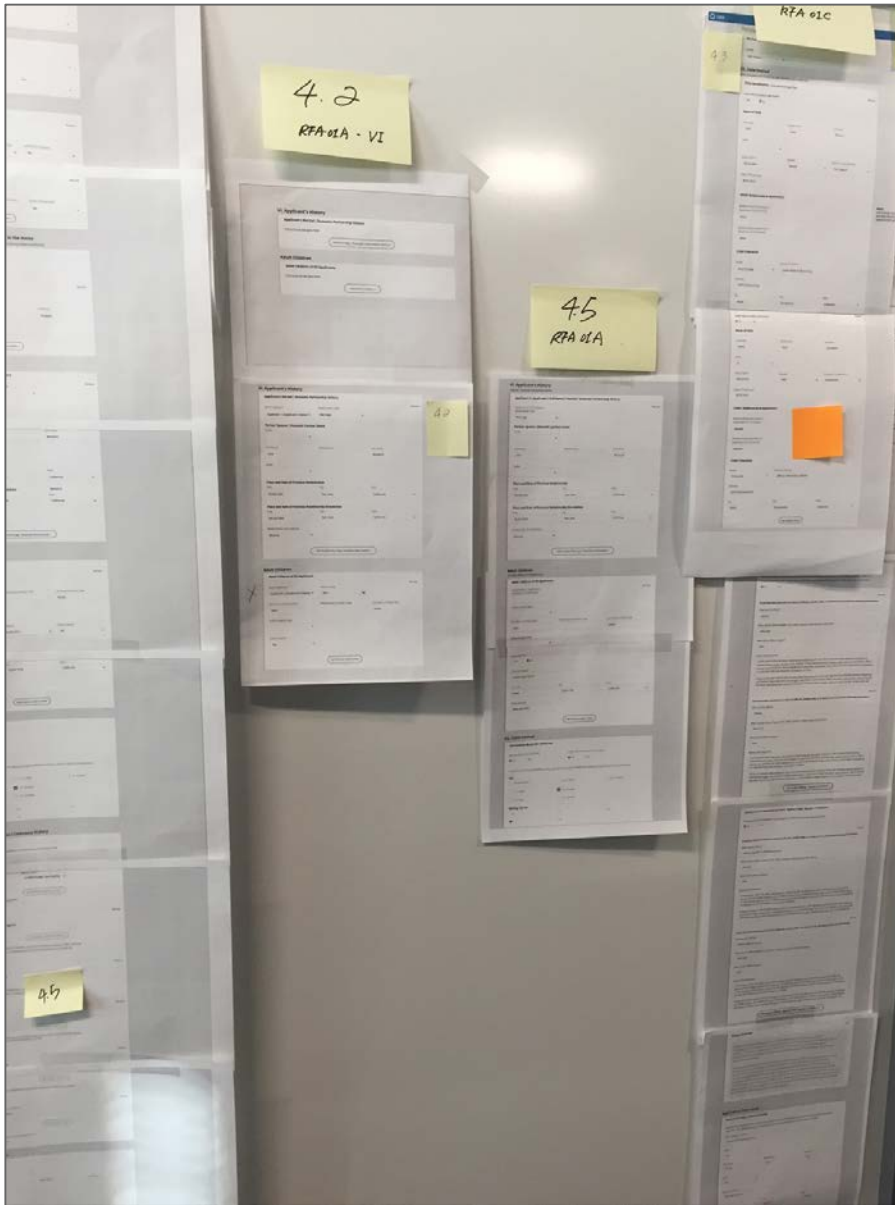

- Facility Address Search
- Logout (Design Ops related)
- RFA 01B and C (to extent available)
- Form Navigation
- Facility Profile (Stretch)

Other

- **Deliver Credentials and Preview URL to Constituents**
- Updated PI roadmap

Business

- Clarify questions concerning External Systems document
- Data Field Descriptions for Logical Data Model
 - RFA 03
- CWS/CMS Permission Access

Digital Forms

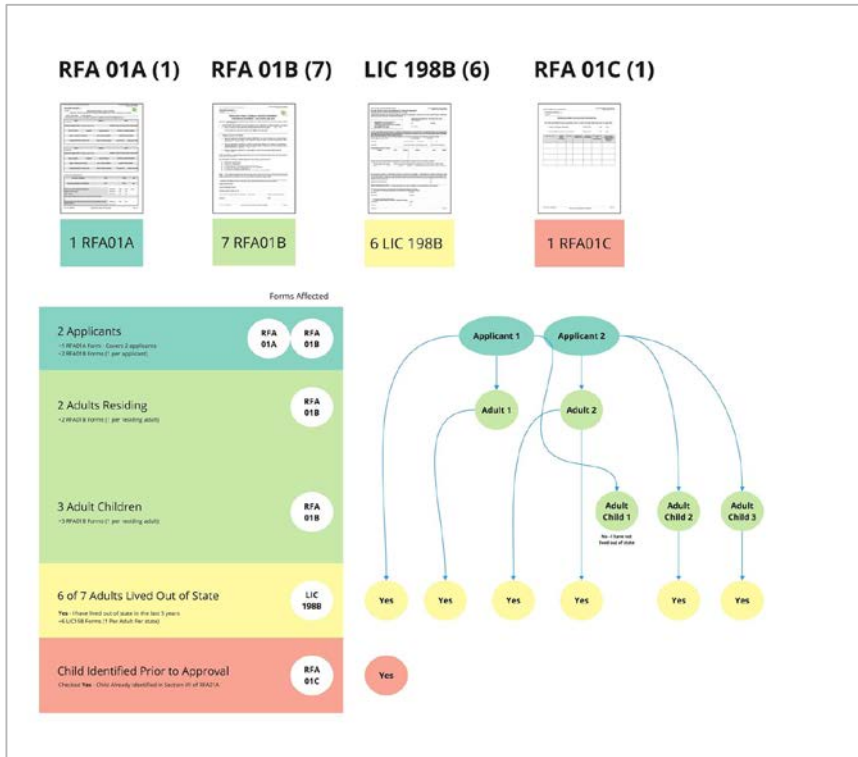

RFA01A, 01B & 01C designs are delivered

A consistent and accessible design solution combining RFA data collection and CWS legacy system compliance.

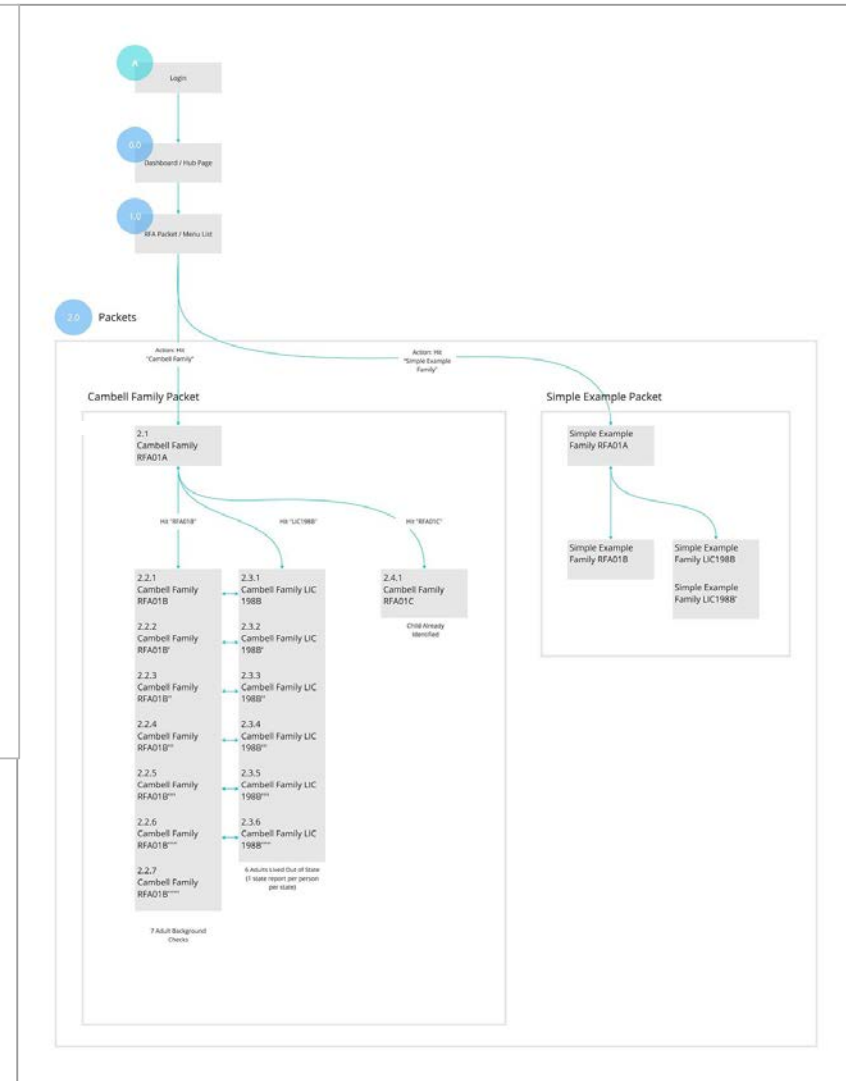

The Future is Nearer!
