Child Welfare Digital Services

Child Welfare Digital Services Sprint Review Presentation

Sprint Review of Iteration 4.6
CALS

Sprint Dates: 11/02/17 to 11/15/17

Agenda

- CALS product discussion
 - Value proposition
 - Accepted work targets for 4.6
 - Product demonstration
- Next event
- Important links

CALS value proposition, PI-4 “RFA Applications”

Child Welfare Goals	Impact of CALS	PI-3 Features to Deliver Value
Child Safety	Enforced and evaluated standards of quality to ensure all placement facilities are safe for children	Home search and Facility Profiles that display compliance history at a glance
Child Welfare	RFA workers have an easier method of assisting applicants in creating good homes for children	End to End creation of RFA 01A/B/C Ability to print As-Is Version of forms
Workload Management	Less time fighting the tool and more time for social work	Global and Page navigations across all digital services makes it easier to operate in the system
Data Quality	Reduction in the duplication of data entry across multiple data sources	Single point of entry for applicant information that is reused throughout RFA forms process Creation of Facilities in CWS/CMS

Sprint Iteration 4.6

Target Completion Activities

Design

- Side Navigation for Common Component Library
- PI-5 Planning
- PI-5 Innovation

Front End Dev

- Complete RFA 01C
- PI-5 Planning
- PI-5 Innovation

Other

- **Deliver Credentials and Preview URL to Constituents**

Business

- PI-5 Planning
- PI-5 Innovation

PI-5 Planning

The image shows a wall covered in sticky notes for PI-5 Planning, organized into a grid with columns for Sprints 5.1, 5.2, and 3/4/5, and rows for Design and Dev phases.

Design Phase:

- Sprint 5.1:**
 - Capacity: Budget 11m, Dev 195, 195m
 - Sprint Goal: Business, Define user Roles
 - Design: Workflows, Views, Validations
 - Sticky notes: "Current Role Based Search?", "Define the current quest log system", "What are the rules we want the rules to be based on?", "What are the rules we want the rules to be based on?", "What are the rules we want the rules to be based on?"
- Sprint 5.2:**
 - Design: Check to sign, Create facility, Calls Roles & Permissions, Submit Validation Handling
- Sprint 3/4/5:**
 - Design: Submit, Search Facility Search Results, Search Facility Search Criteria, Relationship that can be passed & legacy

Dev Phase:

- Sprint 5.1:**
 - Dev: RFA 01 B, RFA 01 E, RFA 01 F
- Sprint 5.2:**
 - Dev: RFA 01 NAV, Use Rules, E sign workshop
- Sprint 3/4/5:**
 - Dev: Facility Search, RFA 1A 1B 1C, RFA 1A 1B 1C Development, VVO RFA 1A View And Permit APP, RFA 1A NAV, RFA 1A NAV, Technical Error Hand line

Other notes include "Big Design", "Dev", and "Check for Error (Error Message)".

Product Demonstration

This is what we have all been waiting for...

1. RFA 01C
