

### **Executive Summary**

CARES-Live 2.7 released on 11/16/2019 includes the following new features and enhancements:

- **Child and Adolescent Needs and Strengths (CANS)** – CANS age 0-5 template updated to keep in sync with CDSS CANS form (CA IP-CANS February 2019).
- **Child Welfare History Snapshot** – this release focuses on additional Child Welfare History Snapshot enhancements requested by County users and Subject Matter Experts (SME's). These enhancements and fixes bring efficiency to performing searches and the results that users review.

### **Release Description**

CARES-Live 2.7 Release provides enhancements associated to both CANS and Child Welfare History Snapshot.

### **CANS**

The following **Enhancements** are for **CANS**:

#	CANS - Enhancement Description
1	Item numbers EC05 and EC06 on CANS age 0-5 template were transposed to match the most current CDSS CANS form (CA IP-CANS February 2019).

**Child Welfare History Snapshot**

The following **enhancements** are for **Child Welfare History Snapshot**:

#	Child Welfare History Snapshot – Enhancement Description
1	<b>Search</b> - Search button disabled when all fields on the Child Welfare History Snapshot screen are empty. When erasing a required field, the search button will be disabled.
2	<b>SSN &amp; Client ID</b> – Allow a user to focus on and edit any of the numbers in the SSN and Client ID field, rather than erase the entire field and re-enter.
3	<b>Phone Number</b> – Phone number no longer displays as a clickable Hyperlink on the Person Card of Child Welfare History Snapshot.

### Known Issues/Limitations

The Known Issues/Limitations for this release include the following:

- When entering a single digit month in the DOB, it clears/erases the DOB from the Search and no validation error appears for the user to know the error.
- When selecting approximate age and an age unit, upon hitting the “Enter” keyboard button, the Search is executed but the drop-down remains visible until you initiate another action such as scrolling down to see the Search Results.
- The Manage Users functionality experienced performance issues (i.e. delayed view of characters after they were typed) when County and State Admins attempted to search for existing users or edit existing users in CARES-Live.

### **Interim Processes**

Interim processes are short-term, alternative steps for users given known system bugs or CARES-Live features not working as designed. They may be informational only (when no workaround is available).
