

We're Hiring

CWDS Seeks Security Integration Specialist

State Classification: Staff Information Systems Analyst (Specialist)

California is recruiting for a Security Integration Specialist to enable the security development of one of the state's highest profile systems, the Office of Systems Integration Child Welfare Digital Services project to replace a 20 year-old legacy system used by case workers across the state's 58 counties. Using open source software, Agile methodologies and user-centered design, the project is embarking on an innovative new approach for California state government.

As the subject matter expert for security working with software development teams, the Security Integration Specialist will work directly with developers to insure the state produces a highly secure, scalable and innovative solution to the state's Child Welfare needs.

See page 2 for how to apply.

Desirable Qualifications

- Strong communications skills
- Understanding Information Security principles
- Experience with Agile/SCRUM methodology
- Experience with testing methodologies
- Experience with developing security policy and standards

Our Background

The goal of CWDS is to design and develop a suite of web applications to replace the legacy mainframe-based Child Welfare Services Case Management System. As California's premiere technology project utilizing Agile methodology, CWDS is embarking on a groundbreaking initiative based on the principles of user-centered design and iterative development. CWDS leverages **open source technology** including **Java, Ruby on Rails, PostgreSQL, and AWS elastic cloud infrastructure**.

All code produced by the project is licensed as open source. In late 2015, state executives designated CWDS a "demonstration project" after cancelling its planned "monolithic" procurement of a single implementation vendor in favor of a modular approach, modeled after successful practices found in the private sector. The project has already surpassed expectations by delivering its first software release in March 2017, months before the originally planned Request for Proposal that would have been released to hire a systems integration vendor later this year.

How to Apply

Step 1: You must first establish a [CalCareer Account](#).

Step 2: Qualify [here](#) if you are not already on the **eligibility list for an Associate Information System Analyst**.

Step 3: Follow the directions to apply electronically, online [here](#).

Why CWDS?

The CWDS team, while working in an Agile environment and using the principles of user-centered design, collaborates directly with its end users and instills creativity, constant feedback and innovative thinking. At the same time, we are producing functionality in product faster than the typical waterfall type environments seen throughout state service.

In its recently completed construction of an innovative and newly designed office space, the CWDS employees enjoy working in a modern, open space environment with useful and deliberately collaborative features. We are located about 10 minutes north of downtown in Natomas, with open trails for walking or biking, showers and lockers, free parking and easy access to I-80, I-5 and the Sacramento International Airport.

Be a part of this exciting team working on a groundbreaking initiative to design a new high profile system that promotes the safety and well-being of children in California.
