

CWS-CARES

CARES 0.17 Interim Processes

(RFA Application Process)

As of 06/25/2025

The following table represents the interim processes to be used as short-term, alternative steps for users given known system bugs or CARES features are not working as designed. They may be informational only (when no workaround is available).

Status	Description
Active	White: Known bug / feature is not working as designed. Use Interim Process until resolved.
Resolved	Yellow: Known bug / feature is now working as designed. Interim Process is no longer needed.

#	Description	Interim Process	Status
44	When user opened RFA Supervisor Dashboard, 33 applications were being displayed, but only two have been processed.	Once you select the KPI link from your home page, you will see data for all counties. To change it to reflect only your county click on the dropdown under County and select your county.	Active
