

# Child Welfare Services – California Automated Response and Engagement System (CWS-CARES)

## Quarterly Legislative Briefing

November 30, 2018

**CWDS** / Child Welfare Digital Services

# Agenda

Agenda Item	Lead	Time
Project Update - since we last met	Wendy Christian      Becky Stilling Kevin Gaines	1:00 pm – 1:30 pm
Acceleration Strategy	Becky Stilling	1:30 pm – 2:00 pm
CANS	Julie Clemens/Sonoltra Sanchez	2:00 pm – 2:30 pm
County Perspective	Wendy Christian	2:30 pm – 2:45 pm
Closing Remarks	Wendy Christian      Becky Stilling Kevin Gaines	2:45 pm – 3:00 pm

# Project Mission

To provide Child Welfare Workers with the tools and capabilities they need to enhance their efficiency and effectiveness at providing for the safety, well-being, and permanency of children and youth who are at risk of abuse, neglect, or exploitation.

# CWS-CARES Budget FY 2018-19

Child Welfare Services-California Automated Response and Engagement System (CWS- CARES) Budget View	2018-19 CWS-CARES Revised Budget
Personnel Expense	\$ 9,935,256
Operating Equipment and Expense	\$ 69,690,878
Other OE&E	\$ 2,763,538
Hardware/Software	\$ 1,442,317
Facilities	\$ 1,306,708
Data Center Services	\$ 1,998,818
Contract Services	\$ 56,759,103
Software Development Consultant Services	\$ 29,668,094
Implementation Consultant Services	\$ 8,861,100
Project Management Services	\$ 3,342,254
Technical Support Consultant Services	\$ 9,160,991
County Consultant Services	\$ 3,794,736
Interface Partners	\$ 84,960
Administrative Services	\$ 5,420,394
OSI Spending Authority Budget	\$ 79,626,134
CDSS Contract Services	\$ 1,074,180
State Transition Costs	\$ 2,170,410
OE&E Costs	\$ 1,230,322
County Participation Costs	\$ 19,157,746
Total CDSS Local Assistance Budget	\$ 23,632,658
Total Local Assistance Budget	\$ 103,258,792
CDSS State Operations	\$ 2,722,856
Total Project Budget	\$ 105,981,648

As of 11/26/2018

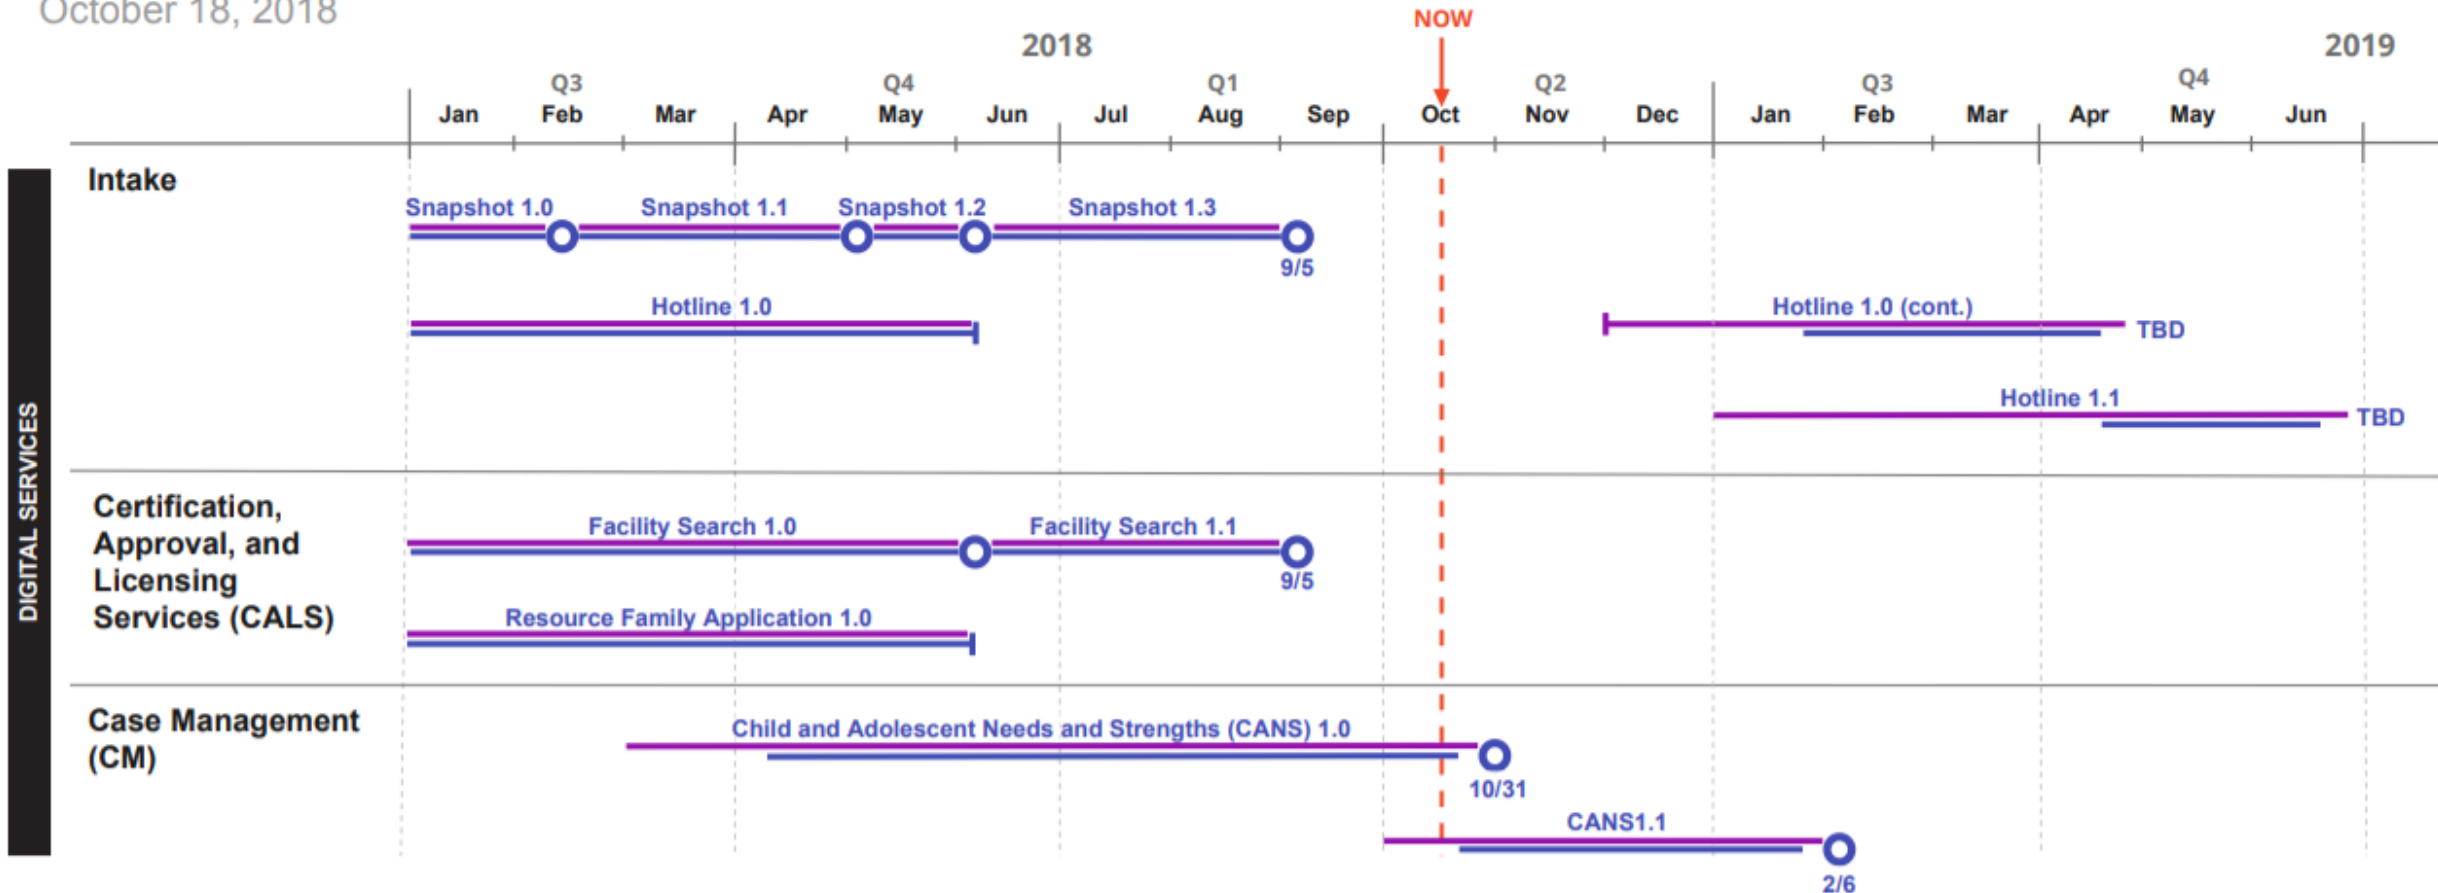

# Since we last met ...

1. ACYF Visit (August 27 -30)
2. CARES 1.0 Statewide Release September 19 and CARES 2.0 October 31
3. Decision to develop one product feature set at a time
4. Foundational Technical Tasks
5. APDU and SPR 3 Status
6. Acceleration Strategy

# CWDS 2018/19 Product Release Roadmap

October 18, 2018

## CARES 1.0

### Snapshot

- Search for CWS/CMS clients and view their relationships, demographic information, and child welfare history
- Copy & paste history into other documents

### Facility Search

- Search for and view pending and approved facilities or homes from CWS/CMS, LIS, and FAS
- View number of beds, complaint history and children associated to the home or facility

### Identity Mgmt

- Provide secure login with e-mail address as username and multi-factor authentication (MFA)
- County Admins access Manage Users portal to manage user access and permissions in CARES

### Status

- Released 9/19/18
- Adopted by Intake & CALS Core Constituents (CC)

## CARES 2.0

### Snapshot (update)

- Remove fuzzy search (commonly misspelled words)
- Add CSEC and probation youth information from CWS/CMS

### Identity Mgmt (update)

- Add ability to filter user list by Office
- Add ability to resend user registration e-mail
- Add last login date to user list

### CANS

- Add and edit child information in CANS
- Add, edit, and print CANS assessment
- View historical list of CANS assessments for child

### Status

- Released 10/31/18
- Available to Intake, CALS & CANS Core Constituents (CC).
- Only CANS CC Reps access CANS feature on 10/31/18
- Statewide Go-Live rollout in 6 waves (12/3/18 to 1/22/19)

## CARES 2.1

### Identity Mgmt (update)

- Add State and Office Admin roles
- Indicate when user meets each password requirement when setting a new password
- Allow three attempts to enter MFA code

### Status

- Release planned Dec. 2018
- Available to current production users on release date
- Available to other counties based on scheduled rollout Go-Live date

## CARES 2.2

### CANS (update)

- Search for and use child information from CWS/CMS
- Provide usability improvements for entering and viewing assessment data
- Provide change log of changes made to CANS assessments
- Provide role-based user dashboards for supervisors, case carrying users, and users without case assignments
- Redact confidential or discretion needed information when printed

### Status

- Release planned early 2019
- Available to current production users on release date
- Available to other counties based on scheduled rollout Go-Live date

# CARES 2.0 Statewide Implementation

Joaquin, Ventura, Yolo

# Acceleration Strategy - Overview

## Product Blueprinting and Domain Modeling

- What are the program/practice and data/analytics must-haves for any platform?
- Which data model improvements (over legacy) are essential to good practice and CCWIS compliance, with emphasis on data quality?
- Which product feature set - considering risk and value - should we deliver next?

## Legacy Integration and Synchronization

- Is it technically feasible, based on realistic Hotline scenarios, to map and keep data in synch between the new system and legacy?
- Among the technically feasible options, which best balance risk and reward?
- Can we show, through proofs of concept, that the most promising option works?

## Platform Market Research

- What are the most viable PaaS options for CARES?
- Have PaaS implementations in HHS - with longitudinal data - worked?
- Are there proven patterns for configuration/extension and exit/migration?  
What are the risk and cost drivers?

PaaS PoC Phase 1

PaaS PoC Phase 2 (complex scenario - relationships)

**Acceleration  
Strategy**

```
graph LR; A[Product Blueprinting and Domain Modeling] --> D{Acceleration Strategy}; B[Legacy Integration and Synchronization] --> D; C[Platform Market Research] --> D; E[PaaS PoC Phase 1] --> D; F[PaaS PoC Phase 2 (complex scenario - relationships)] --> D;
```

# Legacy Integration and Synchronization - Options

- A. Smaller (thin sliced) releases to Production, with full synchronization
- B. Larger (chunked) releases to Production, with bundled synchronization
  - Scope releases at cleanly defined business process boundaries (transitions) that minimize integration and synchronization complexity
- C. Smaller or larger releases to Production, on a single DB2 database
  - Run new and old applications on a single, shared DB2 database instance to minimize synchronization complexity
- D. Single scheduled cutover to Production, with continuous, smaller releases - and incremental trial data conversions - to Staging for user testing

# CANS 1.0 & 1.1

**Julie Clemens**  
**Sonoltra Sanchez**

**Child  
Adolescent  
Needs and  
Strengths  
assessment tool  
(CANS)**

# CANS v1.1 Scope

- **Populate child client information with data from CWS/CMS legacy**
- Improve application usability
  - Radio buttons
    - Decreases the amount of time it takes to complete the assessment form
  - User can add comments to assessment
    - Allows users to document pertinent info related to the assessment
  - User will be prompted to select the age appropriate CANS template
    - Users actively selects needed age template
  - Delete an assessment
    - If an assessment is entered in error, a supervisor can delete the assessment
- Present CANS ratings in a more helpful way by providing rating summary information
- CANS dashboards based on user:
  - Users that are supervisors will be presented with info about their worker's caseload
    - Supervisors can drill down to assessment specifics after selecting a worker's caseload
  - Users that are case carrying works will be presented with their active caseload
    - User can select a client from caseload
  - User without a caseload assignment will be presented with a search bar
    - User can search CWS/CMS legacy for clients

Item Description

This item rates the symptoms of psychiatric disorders with a known neurological base, including schizophrenia spectrum and other psychotic disorders. The common symptoms of these disorders include hallucinations (i.e. experiencing things other do not experience), delusions (i.e. false belief or an incorrect inference about reality that is firmly sustained despite the fact that nearly everybody thinks the belief is false or proof exists of its inaccuracy), disorganized thinking, and bizarre/Idiosyncratic behavior.

Rating:

0 = No current need; no need for action or intervention. No evidence of psychotic symptoms. Both thought processes and content are within normal range.

1 = Identified need requires monitoring, watchful waiting, or preventative activities. Evidence of disruption in thought process or content. Child/youth may be somewhat tangential in speech or evidence somewhat illogical thinking (age-inappropriate). This also includes a child/youth with a history of hallucinations but not currently. Use this category for children/youth who are below the threshold for one of the DSM diagnoses listed above.

**2 = Action or intervention is required to ensure that the identified need is addressed; need is interfering with child/youth's functioning. Evidence of disturbance in thought process or content that may be somewhat delusional or have brief intermittent hallucinations. Speech may be at time quite tangential or illogical.**

3 = Problems are dangerous or disabling; requires immediate and/or intense action. Clear evidence of dangerous hallucinations, delusions, or bizarre behavior that might be associated with some form of psychotic disorder.
