

Sprint Review – Sprint 19.6K (March 21st - April 3rd)

Sprint Goals/Demo

1. Research with ElasticSearch SME for Search Tuning of First & Last Name (SNAP-1013, Gustavo & David)
2. Implement Search by Sex at Birth (SNAP-953, Mykha & Igor)
3. Date of birth cannot be a future date rule (SNAP-973, Manish)
4. Search by Approximate Age (SNAP-894, Gustavo)
5. Search Validation for SSN (SNAP-955, Gustavo)

Team Improvements

Actions	Outcome
Partner with local Elastic Search expertise for consultation	Scenario development and strategy discussions with Elastic Search

Tracking

Epic	Orig. Pts. Est.	Total Est. Pts.	Done Pts	% Complete
Search Results Tuning	250	197	112	56 %
Reduce Search Results Latency <=10 seconds	78	106	56	52 %
Search View	87	87	6	7 %

Team Predictability - **111%**

Dependencies/Impediments/Risks

- Alignment concerns between Search Tuning expectations versus Actual Results ordering outcomes
